1. Introduction

RNJ Token is a cryptocurrency project born from the spirit of climbing, community, and social action. Built on the Binance Smart Chain (BEP-20) network, RNJ combines the Web3 world with a real mission: supporting climbing safety, environmental education, and verified global charity initiatives.

2. Vision and Mission

Vision:
To create a token ecosystem that is not only financially rewarding but also delivers real-world impact: climbing, sharing, and saving lives.

Mission:

- Connecting the crypto world with social and outdoor movements.
- Supporting climbers' safety through equipment and education.
- Providing transparent and trackable charity fund allocations.
- Building an active and dedicated Web3 community.
- Inspiring Web3 projects with value beyond trading.

3. Problems and Solutions

Common Problems in the Crypto World:

- Many crypto projects focus solely on speculation without a real mission.
- Lack of transparency in fund usage and token allocation.
- Weak integration with the real world and local communities.

RNJ Token Solutions:

- On-chain charity: 5% token allocation for social and climbing donations.
- Climbing-inspired features such as Climb-to-Earn & NFT climbing badges.
- Active community with a voting system & DAO-readiness.
- Transparent contracts & public wallet allocations.

4. About RNJ Token

- **Token Name:** RNJ Token
- **Symbol:** RNJ
- **Blockchain:** Binance Smart Chain (BEP-20)
- **Token Type:** Fixed Supply – Non-mintable, Non-inflationary
- **Total Supply:** 100,000,000 RNJ
- **Official Contract:** 0x2078F4903176bc075b98A703ac026F045569800F

RNJ Token symbolizes the spirit of perseverance and collaboration, inspired by real stories of climbers, volunteers, and outdoor communities worldwide.

5. Key Features

1. **Whitelist During Presale (Highly Restricted)**
   o Only wallets on the whitelist can send/receive tokens during the presale.
   o Presale mode = zero tax.
2. **Anti-Bot Launch Mode**
   o First N blocks after launch (default 3, max 10) → non-whitelisted wallets can only SELL to DEX.
   o BUY is open, but with anti-sniper protection.
3. **Founder Vesting**
   o Founder wallet receives 50% of allocated tokens at launch.
   o Remaining 50% is unlocked gradually in 4 phases every ±90 days / 12 months (ensuring long-term commitment and price stability).
4. **Low & Flexible Transaction Fees**
   o Post-launch: 0.6% (0.2% charity + 0.4% dev/marketing).
   o Adjustable (maximum total fee 1%).
5. **Fee-Exempt List**
   o Certain wallets can be exempted from fees (DEX routers, internal wallets, etc.).
   o The list can be locked once finalized.
6. **Manual Burn with On/Off Toggle**
   o No auto-burn. Manual burns are carried out for specific events/milestones.
7. **Pause/Unpause (Emergency Control)**
   o Owner can temporarily halt all transactions in emergency situations.
8. **DAO-Ready, Staking-Ready, NFT-Ready**
   o Modular contract structure for DAO voting, staking vaults, and future NFT/climb-to-earn features.

By accessing and reading this whitepaper, you acknowledge that you fully understand participation in this project is experimental and is not protected by consumer or traditional market laws.

13. Privacy Policy

We respect your privacy.

The RNJ Token project does not actively collect personal data such as ID cards, passports, home addresses, or biometric data.

Data that may be collected (via airdrop forms, community campaigns, etc.) includes:

- Blockchain wallet address (public wallet)
- Social media username (optional)
- Email address (if voluntarily provided by the participant)

This data is used solely for internal campaign purposes (reward distribution verification, anti-bot measures, etc.) and will not be sold, shared with third parties, or used for other purposes without explicit consent.

We do not store data on centralized servers. All data is stored in a limited capacity and will be deleted once it is no longer relevant to community activities.
